

More Success For You.
The Layher "More Possibilities Package".

Layher® 

More Possibilities. The Scaffolding System.

More Clarity. More possibilities.

Keeping track of things is today more important than ever. Long-term success is only possible with knowledge of what the market and the latest technology can offer and with precise knowledge of the company.

Layher® 

More Possibilities. The Scaffolding System.

More possibilities – from knowledge. A fund of experience accumulated over decades forms the solid basis for the success of our scaffolding systems. This close link to the practical aspects can be found in every one of the many Layher originals. Even in unpredictable and difficult applications, these products demonstrate the sheer amount of quality, intelligence and versatility for day-to-day use that they possess. If you also need specialised solutions, our experienced team of project

technicians, engineers and expert erectors is there to provide you with skilled assistance.

This is why the first-class Layher products also come with first-class service – the Layher "More Possibilities Package". Find out for yourself how much more is possible with it.

More possibilities – from information. From the daily flood of information reaching us, we continually filter out what's relevant for you and keep you in touch with developments in scaffolding construction. The newsletter "Rund ums Gerüst" (All about scaffolding), "Layher Infos" about products, our comprehensive technical brochures, the exhibitions and training courses on products and regulations, all provide you with the essential advantage of better information than your competitors. This and other topical information can of course be accessed at any time, day or night, on the Layher web site.

More possibilities – from product variety. The wide range of Layher products, their design as modular systems, and their cross-system installation compatibility, enable you to cope with every job and application you can think of. This consistent orientation to the demands of practical use makes our products the flexible and economical basis for everyone with a preference for intelligent solutions.

More Freedom. More possibilities.

In the struggle to win customers and market shares, long-term survival is only possible by keeping a close eye on the cost/benefit ratio of their activities.

Layher® 

More Possibilities. The Scaffolding System.

More possibilities – from profitability and logistic concepts.

Thanks to our close links with the practical aspects, we know the factors that will lead to your success. They include unbeatably fast assembly and dismantling of our durable and hence value-preserving products, lightweight components, perfected concepts for space-saving and time-saving transport, use and storage, and optimum use of material thanks to cross-system compatibility. The efficient use of personnel and resources safeguards your competitive edge.

To help you do so, the Layher "More Possibilities Package" offers product properties and services that will help you to be successful in the long run and increase the profitability of your company.

More possibilities – from safety. When it comes to safety too, you can depend on us. In addition to certified quality management according to DIN ISO 9001:2000, Layher products possess extensive building authority approvals both inside and outside Germany; GS symbols indicate that they have passed inspections by independent German test institutions such as TÜV or the professional trade associations – in all cases based on the latest legal guidelines. That gives you the certainty that you will be able to work without problems wherever the site may be.

More possibilities – from quality. The well-planned automation of our production facilities, and selection of materials from dependable and long-standing suppliers, ensure that you get top quality in all Layher products. With this high degree of precision and durability, you will benefit every day thanks to hitch-free assembly and dismantling and to the economic use of all resources.

More Flexibility. More possibilities.

Growing demands and the need to move into new fields of activity dominate your daily operations. And the fruits of success are increasingly harder to reach.

Layher 

More Possibilities. The Scaffolding System.

More possibilities – from service centers. With well-equipped service centers in Germany, a rapid and dependable delivery service and a global network of Layher sales subsidiaries and partners, we ensure that you can obtain our products any time and anywhere. This service gives you a previously unknown flexibility when it comes to obtaining scaffolding material – for large and small requirements, and for tight deadlines – whenever and wherever you need it.

We can help you with competent advice, a large number of service centers, a dependable delivery service, and a wealth of experience in solving complex tasks. To do so, we develop, jointly with you, the optimum solutions for your specific problems and requirements.

More possibilities – from Layher's employees. Our employees have one very special trait – enthusiasm for scaffolding construction: whether you need one of our competent external staff or someone at Layher itself, whether it's a matter of starting up a business, selecting a system, financing, streamlining work procedures or other technical matters: you can be sure of receiving dedicated, conscientious and comprehensive advice.

More possibilities – from special solutions. It doesn't matter what challenges you face. As a Layher partner, you can benefit from a comprehensive range of standard

solutions with which you can handle every task. For special jobs, you can also fall back on an experienced team that will come up with a customized solution jointly with you, and design and manufacture special components.

More Ideas. More possibilities.

Innovative ideas and techniques are the hallmarks of successful companies. Being successful tomorrow means thinking one step ahead of the others today.

Layher 
More Possibilities. The Scaffolding System.

More possibilities – from innovation. Ongoing and practically inspired development work on both new and existing products ensure new fields of business for you, besides improvements for your day-to-day work. That way you can make better use of your material and in the long run maintain your lead over your competitors. Here we attach very great value to the compatibility of new products with existing systems, so that the material you have doesn't suddenly look "obsolete".

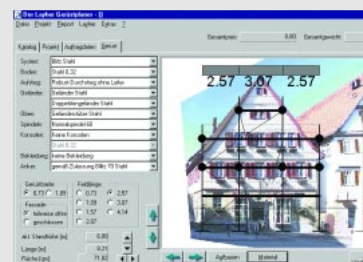

As our partner, you're ideally set up for the future. Always looking ahead, and continuously working to improve our solutions, are the cornerstones of our company and your success.

More possibilities – from Layher the company. With almost 60 years of experience, the Layher name is synonymous worldwide with high-quality and practically tested scaffolding systems, an extensive range of services, and dependable partnership.

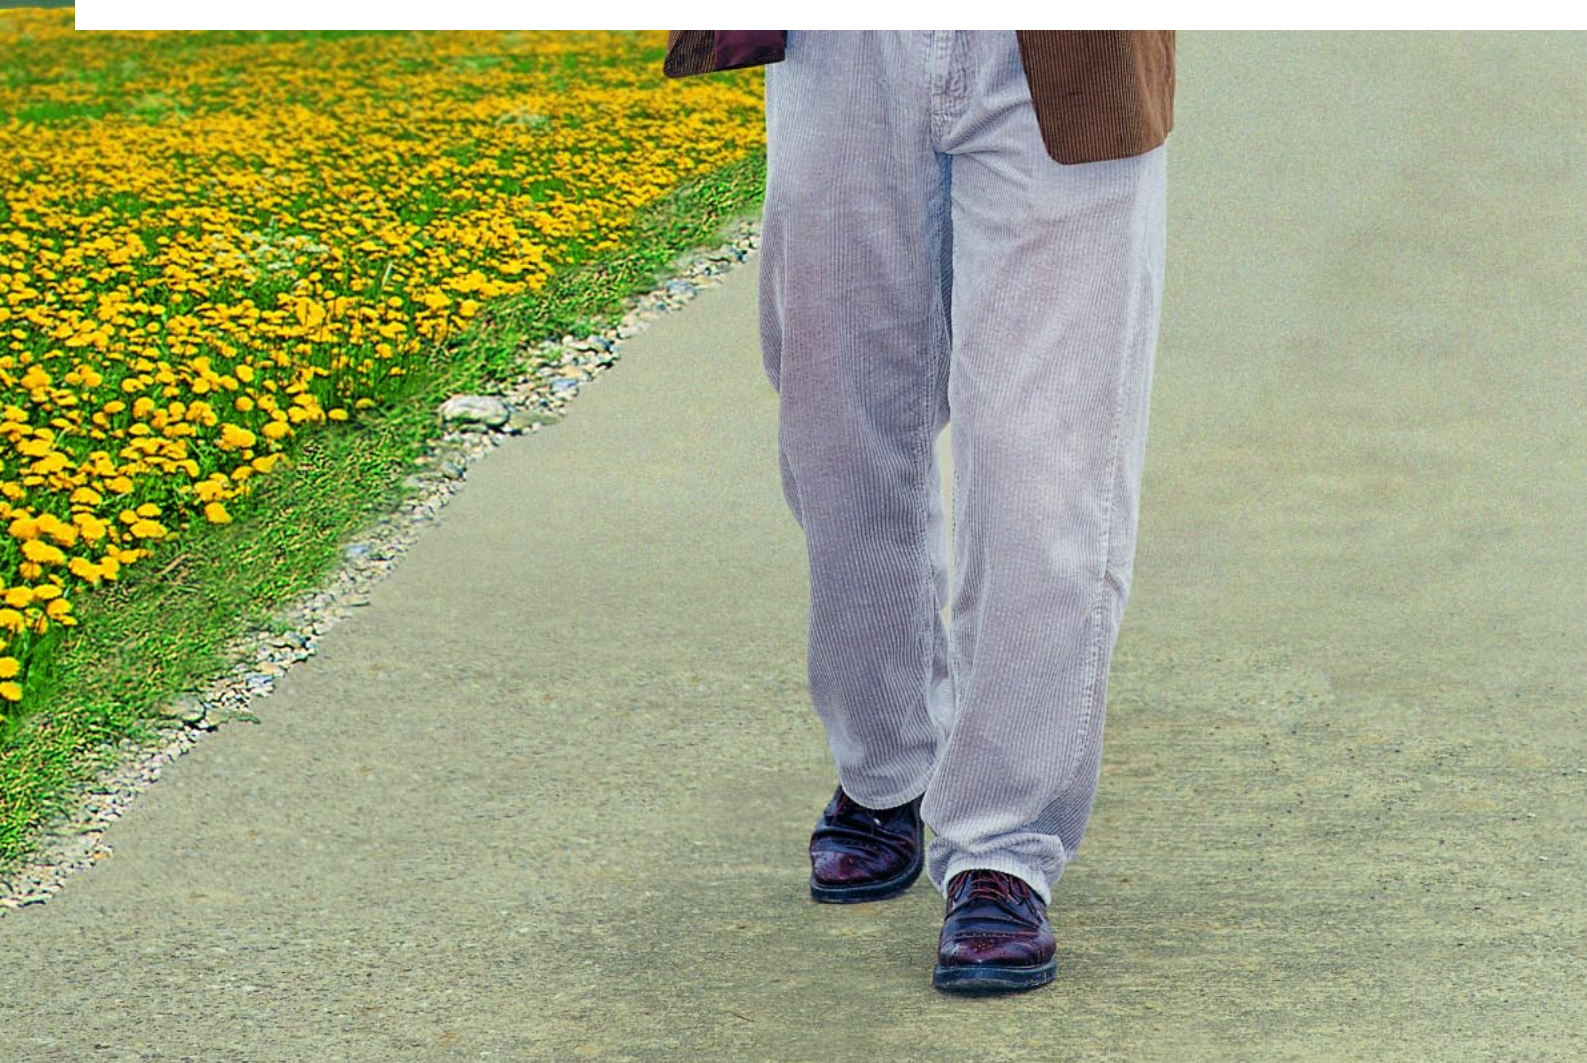

Intelligent products and problem solutions that make your everyday work easier are the best proof of this. As an internationally experienced company, we're there for you at any time with our expertise and experience. Because your success is our aim.

More possibilities – from software. Time and material are the crucial factors in scaffolding construction. To use both of them as effectively as possible, and to relieve you of the routine work, we have developed practically oriented computer programs for scaffolding planning. What that means for you is a high degree of commercial and technical planning reliability, optimised use of your material capacities, and full cost transparency at every point of a project.

**The Layher "More Possibilities Package".
For lasting partnership.**

More Clarity.
More Freedom.
More Flexibility.
More Ideas.
More Success For You.

The consistent orientation of our product policy to your requirements, and our efforts to give you the best possible support, make us, the Layher company and its employees, a partner you can rely on when it comes to scaffolding systems. And with the Layher "More Possibilities Package" – plus our complete product range of acknowledged high quality – we offer you a unique service. With the single aim of securing your success in the long term.
